REID
LIFTING
LIGHTWEIGHT | PORTABLE | SAFE

Raising industry lifting standards for 20 years

REID Lifting is the market leading innovator of lightweight, portable and safe lifting equipment.

All products are designed to offer real cost value while ensuring a level above the competition in terms of ease of use, quality of specification, versatility and delivery.

Manufactured in the UK, REID's superior products attract customers and resellers throughout Europe, North America, Australia, the Middle East and beyond. REID Lifting are continuously improving their products and service to ensure they stay at the forefront of the market.

With above-WLL testing, Lloyd's Register accreditation and exceptional knowledge of both aluminium engineering and lifting legislation, you can rest assured that a REID product will perform safely and easily.

ICONS EXPLAINED

Working Load Limit

WLL

Each system will have a working load limit (WLL) rating clearly stated along with its serial number for traceability. The WLL rating should NOT be exceeded under any circumstances.

Assembly/Operation

People Required

An indicator of the people typically required to safely assemble and operate the system in normal situations within manual handling guidelines. Every lift should be supported by the relevant risk assessment and method statement prior to the activity.

Transportation

Weight/Method

The typical total weight of each system for transportation. Weights may vary marginally. The format explains whether the system is 'bagged' or 'flat packed' for easy and safe storage, handling and transportation.

Personnel Lifting

EN795

Fully certified temporary anchor point meeting strict requirements of EN795 for protection against falls from a height and personnel lifting (as part of an EN363 compliant system).

Product Brochure Index:

PORTA-GANTRY

A versatile range of lightweight aluminium gantries, designed to lift up to 5,000kg even in confined spaces.

4

PORTA-GANTRY RAPIDE

A unique ultra-light & rapidly deployable gantry that provides a versatile lifting solution for both goods and personnel.

8

PORTA-DAVIT

Designed with safety and strength in mind, our PORTA-DAVITs are easy to transport and assemble, yet offer unbeatable strength and durability.

10

PORTA-DAVIT QUANTUM

With a WLL 600kg and weighing just 18.5kg complete with an integrated carry handle, the PORTA-DAVIT QUANTUM is easily transported and suitable for a range of applications.

12

T-DAVIT

Lightweight and portable, REID Lifting's innovative bespoke T-DAVIT range stands head and shoulders above the rest. Offering up to WLL 500kg and 360° rotation under finger tip.

14

SOCKETS & EXTENSIONS

A complete range of supporting sockets and socket extensions up to 1100mm are available to make the most of your davit lifting solution.

16

PORTA-BASE

Our flexible, portable socket base for the PORTA-DAVIT 500, has both goods and personnel lifting capabilities.

17

PORTA-QUAD

The ultra-light, quick to assemble mobile, yet stable lifting structure is perfectly designed for lifting heavy, submersible pumps with a higher safety factor than tripod systems.

17

SPECIALIST SERVICES

As industry lifting experts, REID Lifting offer a range of specialist services such as consultancy, customised design and on site training sessions.

18

QUALITY & SAFETY

REID Lifting operates to the highest standards of quality and safety in order to deliver the best lifting systems.

19

Unique portable gantry system that can safely lift up to 5000kg, with manual assembly on just 4 bolts.

PORTA-GANTRY 500 - 5000 Information:

- **GOODS WLL** From 500kg up to 5000kg (depending on model)
- **PERSONNEL WLL** Maximum combined personnel lifting capacity up to 2000kg (depending on model)
- **3-5 PERSON FALL ARREST EN795:1997** certified - as part of an EN363 compliant system (500 & 1000 - 3 persons, 2000, 3000 & 5000 - 5 persons)
- **ATEX** All models suitable for use in ATEX Zone 2 explosive atmospheres
- **LIGHTWEIGHT & PORTABLE** With easy on-site assembly within manual handling guidelines:
 - 4 portable parts assembled on just 4 bolts
 - Simple 'scissoring' assembly in just 2-3 minutes
- **ERGONOMIC**
 - 360° swivel-locking castors as standard
 - Simple, manual height & span adjustment
 - Ultra-safe captive trolley
 - Ergonomic design of profiles and handles
- **STABLE** Bolted structure, lateral beam and leg bracing features
- **CONFIGURATIONS** Variety of standard configurations available, plus customisation for specific requirements and interchangeable components (subject to WLL rating)

An industry 1st - The *PORTA-GANTRY* 5000 is highly portable, safe and manually operated.

(I) = Intermediate (T) = Tall (see table)

The WLL 5000kg *PORTA-GANTRY* is a first in the industry. Following the design principles of all of the range, the *PORTA-GANTRY* 5000kg is highly portable, safe and manually operated.

PORTA-GANTRY 5000 Information:

- **GOODS WLL** Up to 5000kg rating - available in T & I standard frame sizes plus customisation
- **PERSONNEL WLL** Maximum combined personnel lifting capacity of up to 2000kg
- **5 PERSON FALL ARREST** EN795:1997 certified - as part of an EN363 compliant system
- **LIGHTWEIGHT & PORTABLE**
 - 'Wheel barrow' handling in field with just two people required
- **ERGONOMIC**
 - Mechanical assembly aid reducing manual handling (utilises standard chain block)
 - Manual handling compliance: 2 person assembly with mechanical aid, 4 person assembly without tools

Notified Body Approval SGS UK (0120); Patented design.

500 -
5000KG
WLL

1-4
People

92 - 294KG
flat pack

EN795

No compromise on strength or safety. Custom configurations are available across the range.

Standard beam lengths

- 2500mm • 5500mm
- 3000mm • 6000mm
- 3920mm • 8400mm (D section Max)
- 4570mm • 9000mm

N.B: Clear Operating Span = Beam Length - 920mm

Each PORTA-GANTRY system comprises:

- 2 x A-Frames (or custom alternatives)
- Trolley - fully encapsulated for safety
- Beam lengths up to 9000mm (WLL dependent)
- Options and accessories to optimise your solution

Beam height adjustment

The height of each gantry beam is easily adjusted by the release of 2 bolts on each upright and can be easily and safely raised into position by increments of 200 or 150mm. To assist with this activity a geared wheel or ratchet system is provided for the larger gantries; manual on smaller frames.

500kg
WLL

1
person

24kg
bagged

EN795

Lightweight 2 piece, bagged davit system with up to WLL 500kg, yet only 24kg fully assembled.

With a safe lifting capacity of up to 500kg, made of lightweight aluminium and weighing just 24kg (fully assembled), the *PORTA-DAVIT* system is literally a one person 'pick up and go' lifting solution. Manufactured using REID Lifting's innovative design, the *PORTA-DAVIT* bagged system can be easily transported by hand to any site that a single person can access.

The *PORTA-DAVIT* is available in several variations, including standard strop and winched versions, extended radius (e.g. WLL 350kg at 1500mm radius) and complete with a portable socket base (the *PORTA-BASE*), removing the need for a fixed socket installation.

For more information on the *PORTA-BASE* (for use with the *PORTA-DAVIT* 500), please go to page 17.

ATEX certified
(Contact REID for details)

PORTA-DAVIT 500 Information:

- **GOODS WLL** Up to 500kg
- **PERSONNEL WLL** Up to 120kg
- **1 PERSON FALL ARREST** EN795:1997 certified
- as part of an EN363 compliant system
- **ATEX** Suitable for use in ATEX Zone 2 explosive atmospheres
- **LIGHTWEIGHT & PORTABLE** Standard unit just 24kg fully assembled
- Simple assembly within manual handling guidelines, 2 piece design with no tools needed
- Easy to store and transport in heavy duty bag
- **RADIUS ADJUSTMENT** 800-1200mm as standard
- **EASE OF ROTATION** 360° rotation under full load with fingertip control
- **CORROSION RESISTANT** Clean, anodised finish
- **UNIVERSAL KINGPIN** Mates with all 65mm REID sockets (or sleeves for existing sockets) - includes REID's unique portable socket, the *PORTA-BASE*. Also suitable for use with socket extensions.

PORTA-DAVIT 500 man-rated options

The PORTA-DAVIT is available in three forms rated for different personnel applications:

- **FALL PROTECTION** Standard strop davit with a fall arrest unit fitted to a shackle.
- **LOWER & RAISE** Winched davit with a man rated winch to lower and raise personnel and separate fall arrest unit with or without integral retrieval winch.
- **LADDER OR CLIMBING** Winched davit with a fall arrest unit with integral retrieval winch where personnel moves on a ladder or climbing.

The PORTA-DAVIT system (using REID mounting sockets) is approved to EN795:1997, as part of an EN363 compliant system.

We recommend that the PORTA-DAVIT unit has a dedicated man-ride rating only and is set at the minimum possible operating radius; however, it is possible to have the davit dual rated at 120kg for man ride and 500kg goods lifting.

When used for man-ride applications the PORTA-DAVIT unit **must** be dedicated to the man-ride application **only** and there should be no goods load attached to the davit. Suitably rated chain blocks, winches and man-ride options and accessories are all available from REID Lifting.

Notified Body Approval Lloyd's Register [0038] Patent pending.

PORTA-DAVIT™ 1000

The first truly portable WLL 1000kg lightweight davit system.

1000kg
WLL

1
person

39kg
bagged

The PORTA-DAVIT 1000 further extends the PORTA-DAVIT family of jib cranes with up to WLL 1000kg lifting capability for goods, bringing additional safety margins for situations where safety is paramount, such as wastewater treatment applications.

PORTA-DAVIT 1000 Information:

- **GOODS WLL** Up to 1000kg at 900-1200mm radius
- **HEIGHT OF LIFT** 2000mm to shackles on standard unit
- **LIGHTWEIGHT & PORTABLE**
 - Unique profiles maximising strength vs. weight
 - Stored in a heavy duty bag for easy transportation - combined weight of only 39kg
 - Single person assembly - no tools required
- **EASE OF ROTATION** Bearing system allows easy rotation - rotation bar supplied as an option

Custom versions to meet specific requirements can be quoted upon request.

N.B: 95mm sockets are required for this product.

Patented design.

PORTA-DAVIT™ QUANTUM

600kg
WLL

1
person

From
18.5kg

EN795

Strong yet ultra-light system with integrated carry handle, capable of lifting up to 600kg.

This unique, ultra-light and rapidly deployable system is the latest innovation to come from REID Lifting. With a WLL 600kg and weighing from just 18.5kg with an integrated carry-handle, the *PORTA-DAVIT QUANTUM* is easily transported, and suitable for a range of applications.

ATEX certified
(Contact REID for details)

PORTA-DAVIT QUANTUM Information:

- **GOODS WLL**
 - PORTA-DAVIT QUANTUM 1 - up to 600kg at 1200mm radius
 - PORTA-DAVIT QUANTUM 2 - up to 500kg at 1500mm radius
- **PERSONNEL WLL** Up to 150kg at all configurations
- **1 PERSON FALL ARREST** EN795:2012 certified - as part of an EN363 compliant system
- **ATEX** Suitable for use in ATEX Zone 2 explosive atmospheres
- **LIGHTWEIGHT & PORTABLE** Manual handling compliant - fully assembled weight from just 18.5kg
- Integrated carry handle
- Bagged for easy transportation and storage
- **RAPID ASSEMBLY** No tools needed, assembles on just 1 pin (2 for winched)
- **RADIUS ADJUSTMENT** 900mm -1200mm or 1200mm -1500mm as standard
- **EASE OF ROTATION** 360° rotation under full load with fingertip control
- **CORROSION RESISTANT** Clean anodised finish to increase wear resistance
- **UNIVERSAL KINGPIN** Mates with all 65mm REID sockets (or sleeves for existing sockets). Also suitable for use with socket extensions

Customised
& bagged

EN795

The bespoke T-DAVIT is lightweight, portable and manufactured with specific needs in mind.

An extensive range of davits offering up to WLL 500kg with 360° rotation under finger tip control for those difficult locations, giving a wide range of standard height and radius options and available customisation.

Particularly suited to situations with environment constraints (headroom, handrails etc.) with a wide range of configurations available. Designed to comply with manual handling regulations and to avoid assembling the davit at height.

N.B: TYPE W provides Winch & Shackle lifting points.
TYPE S provides Shackle lifting only.

Standard Type W
(Winch and Shackle) T-DAVIT

Standard Type S
(Shackle only) T-DAVIT

T-DAVIT Information:

- **GOODS WLL** Up to 500kg (see table on next page)
- **PERSONNEL WLL** Configurations available up to 150kg
- **1 PERSON FALL ARREST** EN795:2012 certified - as part of an EN363 compliant system
- **ATEX** Suitable for use in ATEX Zone 2 explosive atmospheres
- **LIGHTWEIGHT & PORTABLE**
 - Manual handling compliant
 - Reduced maintenance costs
 - Bagged for easy transportation and storage
- **RAPID ASSEMBLY** Assembly & operation by 1 person, no tools required - just 2 main components
- **RADIUS ADJUSTMENT** Operational radius up to 3000mm - subject to WLL reduction (1900mm maximum for EN795)
- **EASE OF ROTATION** 360° rotation under full load with fingertip control
- **CORROSION RESISTANT** Clean anodised finish to increase wear resistance
- **UNIVERSAL KINGPIN** Mates with all 65mm REID sockets (or sleeves for existing sockets). Also suitable for use with socket extensions
- **SPECIFICATIONS**
 - 2 lifting positions as standard (A&B)
 - Twin shackles for index lifting and/or attachments for winching

Patent pending.

Options & Upgrades:

- Integrated wheel carrier for reduced manual handling

- Beam radius adjustment
- Fall arrest (EN795:2012) and personnel winching

SOCKETS & EXTENSIONS

SOCKETS

REID Lifting manufactures a range of 65mm and 95mm standard sockets to suit the needs of clients' davit mounting foundations, designed and tested for *PORTA-DAVIT* and *T-DAVIT* product families with CE requirements for Declaration of Conformity & Incorporation. Customised sockets can be developed for specialist requirements.

- **Flush Mount:**
 - Complete with cover and re-bars, for casting into concrete, and protective cover.
 - Complete with cover for resin bonding into existing concrete.
- **Top Mount:** Suitable for bolting into existing concrete or steel structures – for simplicity or to provide additional davit height and reach.
- **Side Mount:** Suitable for mounting on the side of concrete or steel structures. A brace plate can be supplied for thin-walled concrete.
- **Bridge Mount:** Suitable for bolting into steel structures. Designed to fit open mesh grating or flush with structural steel work.
- **Customised:** Bespoke versions can be developed for non-typical installations.

All sockets are available in galvanised mild steel, passivated 316L stainless steel and yellow painted finish, with customisation available for specialised requirements.

SOCKET EXTENSIONS

Socket extensions are designed to provide additional height of lift, or to reach over obstacles, protective rails or walls for 65mm socket/kingpin products.

Made with lightweight aluminium alloy with handles for lifting and carrying, REID Lifting socket extensions are very easy to use. They simply insert into the existing socket and the standard *T-DAVIT* or *PORTA-DAVIT* is assembled as normal using the extension as its socket.

Socket extension options

Socket extensions are available in three standard sizes and can be customised to requirements:

- 500mm
- 800mm
- 1100mm
- Customised

Socket Extension Information:

- Can be used with 65mm REID davits combined with 65mm fixed sockets
- Increases the height to the lifting eye by 500mm, 800mm or 1100mm as standard
- Portable and lightweight with carrying/lifting handles
- Safe use features
- Maintenance free
- Manual handling compliant

DISCLAIMER: All REID sockets & extensions have been designed, developed and tested for safe use with REID's equipment and form a key part of the integrity of the total system. Should non-standard third party sockets be used, REID Lifting's Declaration of Conformity & Incorporation on the products is negated. i.e. The system becomes the responsibility of the client.

person

bagged 28kg
bagged 36kg

The strong, yet extremely lightweight, mobile PORTA-QUAD, is available in WLL 500kg and 1000kg models. They are easily carried, assembled and can be used by just 1 person, saving time, manpower and related expense.

PORTA-QUAD Information:

- **GOODS WLL** Up to 500kg or 1000kg (depending on model)
- **LIGHTWEIGHT & PORTABLE**
 - Rapid on site assembly within manual handling guidelines
 - 2 heavy duty carry bags (maximum bag weight 18kg)
- **CORROSION RESISTANT** Clean anodised finish to increase wear resistance
- **SPECIFICATIONS**
 - 360° swivel locking castors for easy manoeuvring
 - Levelling feet option for easy use on most terrains
 - Highly stable structure vs Tripod
 - Can be supplied with directional lock or levelling feet

	WLL 500kg	WLL 1000kg
Base (mm)	1500 x 1500	2000 x 2000
Height to Lifting Eye (mm)	2150	3050
Weight Assembled (kg)	28	36

SPECIALIST SERVICES

Customisation

More than an 'off the shelf' manufacturer, REID Lifting's commitment to creating innovative, efficient and safe lifting systems extends to us welcoming enquiries for customised products to meet specific requirements. Our flexible and effective designs enable customised manufacturing to meet a wide range of requirements.

In addition to this customisation service, we are pleased to work with clients to develop totally bespoke solutions for lifting challenges; jointly develop products for niche applications; develop solution accessories to improve effectiveness or user safety and to work with organisations to 'design in' our products into larger scale projects from an early stage.

Safe assembly, handling & maintenance training

REID Lifting provides safe assembly, operation and maintenance manuals and offers hands on training for all systems, either at our Chepstow facility or at the client's premises. This training is designed to ensure that the client can effectively and safely assemble and operate the equipment in the relevant configuration.

Consultancy services

REID Lifting will be pleased to provide consultancy support for the development of:

- Customised product developments
- Full 'design in' applications
- Bespoke solution development
- Joint product development

Further information and support

Further information and support can be found on our website www.reidlifting.com

Or simply request:

- A presentation or demonstration
- Sales support visit
- Brochures
- Product data sheets
- Joint marketing campaign development – mailers, adverts, exhibition attendance, etc
- Consultancy discussions
- Lunch and learn events

ACCREDITATIONS

Quality and Safety Accreditations

Quality and safety are key themes throughout this document and the REID Lifting ethos.

It is with this in mind that we have undertaken external accreditations to ensure we stay focused on what is important to our clients and users, and ahead of market trends and developments. REID Lifting is continuously audited by Lloyds Register Quality Assurance (LRQA) (CE body no. 0088) for approval of its Integrated Management System combining quality systems management, environmental issues and the Health and Safety practices within the company.

Furthermore our products are subject to type examinations by witnessed testing and review of technical files which are carried out by SGS UK (CE body no. 0120).

(CE) - Conformité Européenne

REID Lifting's products have been designed, tested and approved (as appropriate) to CE requirements. This certifies that REID Lifting's products meet the demands of the European Directives regarding health and safety requirements.

The Queen's Award for Enterprise Innovation:

REID Lifting has been awarded this prestigious award for innovative design and development of lightweight, portable and safe lifting solutions, in both 2006 and 2013.

Testing

Testing and Technical File review are integral parts of our design and manufacturing process. External verification of products is undertaken where appropriate, using government approved Notified Bodies.

All products have been thoroughly type tested at UKAS accredited laboratories. Each system is supplied with a certificate of conformance and individual record of thorough examination or test.

Full product design & development Technical Files are available for inspection.

REID Lifting holds the following certifications

ISO 9001:2008 - Specifies requirements for a quality management system for any organisation that needs to demonstrate its ability to consistently provide products that meets customer and applicable regulatory requirements and aims to enhance customer satisfaction.

ARTICLE 11B - Specifies a quality system to comply with the strict requirements of producing a product to the PPE Directive 89/686/EEC.

ISO 14001:2004 - Specifies the requirements for implementing environmental management systems throughout all areas of the company.

OHSAS 18001:2007 - Occupational health and safety managements systems.

LEEA Membership - REID Lifting Ltd is a full member of the Lifting Equipment Engineers Association (LEEA membership 000897). REID Lifting conforms to the main aims of the association which is to achieve the highest standards of quality and integrity in the operations of members. Entry qualifications are demanding and strictly enforced through technical audits based on the Technical Requirements for Members.
